CONDITIONS FOR THE REPRODUCTION OF MAURITIUS CURRENCY

A. REPRODUCTION OF MAURITIUS BANK NOTES

14. The Bank shall, subject to paragraph 20, give permission for the reproduction of notes if all of the following criteria are met:

14.1 Printed Media

- (a) The reproduction of any note must not be the same size as the actual note. If it is to be smaller, it must be at most two-thirds as long and two-thirds as wide. If it is to be larger, it must be at least one and a half times as long and at least one and a half times as wide as the original size of the actual note. Any reproduction of a part of a note must meet the same conditions.
- (b) The reproduction must show the note in its original design without any alteration unless specified otherwise in this Guideline.
- (c) The reproduction must not distort any image on the bank note including the image of the dignitary on the bank note (apart from enlargement, reduction or slanting).

- (d) The reproduction must not be printed on watermark paper or other substrates similar to a genuine note.
- (e) The reproduction must not be printed in loose form to avoid giving the impression that the reproduction is a genuine note.
- (f) The reproduction must show the note in its original colour or in black and white.
- (g) The signature of the Governor and the Deputy Governors on the note must be obliterated by folding, over-printing or some other method.
- (h) The reproduction must be printed on one-side only to avoid giving the impression that the reproduction is a genuine note.
- (i) The reproduction may not appear in an offensive or inappropriate context or in such a manner that the Bank, in its sole opinion, believes would undermine the integrity of the currency.
- (j) The reproduction must include the word 'SPECIMEN' which must be boldly printed from the bottom left corner to the top right corner across the face of a single note reproduced. The length of the word 'SPECIMEN' must be not less than one third of the length of the reproduction and the width of such word must be not less than one-eighth of the width of the reproduction.
- (k) The reproduction of overlapping notes is acceptable provided that the word 'SPECIMEN' is printed on the uppermost or on the most prominent note in the manner specified in paragraph (j) above.

- (b) the reproduction must be printed on one side only to avoid giving the impression that the reproduction is a genuine coin.

16. For the avoidance of doubt, a coin can be reproduced in its actual size or otherwise with or without the word 'SPECIMEN'.
